Ferodo® Racing Products Selected as Official Partner of SEAT León European Cup

Ferodo Performance Brake Pads to be Fitted on All Cup Entries

Aartselaar, Antwerp, Belgium...Ferodo® performance brake pads from Federal-Mogul Corporation (NASDAQ: FDML) will be standard equipment on all entries in the 2009 SEAT León Eurocup competition in Europe through a sponsorship agreement announced today by Federal-Mogul. Federal-Mogul is the manufacturer and marketer of Ferodo brake products.

The SEAT León Eurocup was created as a new level of competition for enthusiasts of the FIA World Touring Car Championship. Drivers have the opportunity to campaign 301-horsepower SEAT León Eurocup cars in conjunction with WTCC events at leading tracks in Spain, France, Germany, Portugal, England and Italy. Winners of these events can then step up to a SEAT León WTCC vehicle in an upcoming race.

“The Ferodo brand is widely respected by vehicle manufacturers and drivers in on- and off-road racing across the globe. This exclusive relationship expands our portfolio to one of the most innovative and exciting vehicle platforms in all of racing,” said Sergio Bonfanti, managing director, Federal-Mogul friction products, racing and motorcycle division.

Each of the estimated 30 SEAT León Eurocup cars competing in Spain will be equipped with premium Ferodo Ds2.11 (front) and Ds2500 (rear) racing brake pads from Federal-Mogul. These pads have set the braking standard in touring car and GT championships worldwide for the past decade. In addition to their extraordinarily fast bedding-in time (50 percent quicker than other materials), these pads offer extremely high coefficient of friction at all speeds and temperatures, high initial bite, superior consistency and control, and low off-brake drag.

For more information regarding Ferodo brake products, please contact your Ferodo brakes supplier or click on the “Ferodo Racing” link at www.ferodoracing.com.
